

WHITE SILICONE

Atmos Reference : 2111UK / EAN code : 3259040016329

DESCRIPTION

- ✓ Formulated for sanitarries and plumbing sealing applications.
- ✓ Grips perfectly on enamel, stoneware, tile, glass, procelain, acrylic, wood and metal.
- ✓ Treated against moisture, bacteria or humidity stains.

CHARACTERISTICS

If necessary, remove the old gasket with a silicone solvent

- 1-The surface must be clean, degreased and dry.
 - 2- Cut the nozzle to the wished diameter.
 - 3- Apply the sealant.
 - 4-Smooth the gasket with the finger (wear a glove) or a smoother.
- Wait 2 to 3 hours before using the sanitary appliances. 12h - 24h before direct water projection

TIPS :

- ✓ For a cleaner application, stick adhesive tapes on each side of the gasket to be done.
